Safety Assessment

<p>1. Review tasks/goals for this project/field tour (list).</p>
<p>2. Identify and evaluate risks/potential hazards (list and note if special mitigation is needed).</p>
<p>3. What will we do to manage these risks/potential hazards?</p>
<p>4. Do we have the skills, tools, training and PPE to safely complete the project/field tour? (Yes/No) If answer is "NO" do not engage in activity. Attain requisite skills, training, tools, PPE etc.</p>
<p>5. Post-project debrief (Was risk accurately evaluated and tasks completed safely? What potential hazards were observed? What could we have done better to promote safety?).</p>
<p>CONDUCTED BY (Sign and Date):</p>

Use this form to add any necessary JHA'S to cover work Tasks
