

Multiple-Use Sustained-Yield Act

16 U.S.C. § 528. Development and administration of renewable surface resources for multiple use and sustained yield of products and services; Congressional declaration of policy and purpose

It is the policy of the Congress that the national forests are established and shall be administered for outdoor recreation, range, timber, watershed, and wildlife and fish purposes. The purposes of sections 528 to 531 of this title are declared to be supplemental to, but not in derogation of, the purposes for which the national forests were established as set forth in section 475 of this title. Nothing herein shall be construed as affecting the jurisdiction or responsibilities of the several States with respect to wildlife and fish on the national forests. Nothing herein shall be construed so as to affect the use or administration of the mineral resources of national forest lands or to affect the use or administration of Federal lands not within national forests.

(Pub.L. 86-517, § 1, June 12, 1960, 74 Stat. 215.)

16 U.S.C. § 529. Authorization of development and administration; consideration to relative values of resources; areas of wilderness

The Secretary of Agriculture is authorized and directed to develop and administer the renewable surface resources of the national forests for multiple use and sustained yield of the several products and services obtained therefrom. In the administration of the national forests due consideration shall be given to the relative values of the various resources in particular areas. The establishment and maintenance of areas of wilderness are consistent with the purposes and provisions of sections 528 to 531 of this title.

(Pub.L. 86-517, § 2, June 12, 1960, 74 Stat. 215.)

16 U.S.C. § 530. Cooperation for purposes of development and administration with State and local governmental agencies and others

In the effectuation of sections 528 to 531 of this title the Secretary of

Agriculture is authorized to cooperate with interested State and local governmental agencies and others in the development and management of the national forests.

(Pub.L. 86-517, § 3, June 12, 1960, 74 Stat. 215.)

16 U.S.C. § 531. Definitions

As used in sections 528 to 531 of this title the following terms shall have the following meanings:

(a) “Multiple use” means: The management of all the various renewable surface resources of the national forests so that they are utilized in the combination that will best meet the needs of the American people; making the most judicious use of the land for some or all of these resources or related services over areas large enough to provide sufficient latitude for periodic adjustments in use to conform to changing needs and conditions; that some land will be used for less than all of the resources; and harmonious and coordinated management of the various resources, each with the other, without impairment of the productivity of the land, with consideration being given to the relative values of the various resources, and not necessarily the combination of uses that will give the greatest dollar return or the greatest unit output.

(b) “Sustained yield of the several products and services” means the achievement and maintenance in perpetuity of a high-level annual or regular periodic output of the various renewable resources of the national forests without impairment of the productivity of the land.

(Pub.L. 86-517, § 4, June 12, 1960, 74 Stat. 215.)
